Education

Universitat Ramon Llull, Barcelona, Spain   (Expected) 2023

Joint PhD Programme in Business and Territorial Competitiveness (official abbrev. CETIS)

Specialization: Development Economics

Universität Konstanz, Baden-Württemberg, Germany   March, 2019

M.S. Economics, Visiting student at the University of Essex in 18/19 term

Shanghai Lixin University of Accounting & Finance, Shanghai, China   Sept, 2016

B.S. Insurance

Academic Employment

Research Assistant | H2020-Marie Skłodowska-Curie Actions-IF Project   since 09/2020

Supervised by Prof. Dr. Octasiano M. Valerio Mendoza. Click here to access the website of this project.

Thesis and Project

Center for Policing Equity | Teamwork Kaggle Competition   10/2018 - 12/2018

Data wrangling, exploratory data analysis and a beautiful interactive dashboard via using R.

– Tidying, transforming and mapping data from the raw one into an appropriate format.

– Aggregating and summarizing data based on *Geographic ID*.

– Plotting violence and background data (*e.g. age, sex, race*) via using ggplot2.

– Analyzing and writing individual data report.

– Presenting final outcomes to the audience.

Gender Quotas and Decision-making in Committees | Master Thesis   04/2018 - 08/2018

Field: Behavioral Economics. Advisor: Sebastian Fehrle.

– The objective is to study the impact of adopting gender quota in campaigns on the reactions of candidates.

– The theoretical framework is on the foundation of Fehrler, S., Fischbacher, U., & Schneider, M. T. (2017), Croson, R., & Gneezy, U. (2009) and Kreps, D. M., & Wilson, R. (1982).

– The empirical analysis uses two experimental datasets investigating the relationships between lie sizes of the subjects and the individual characteristics, i.e., gender, education, ages.

Workshops and Seminars

Journal Club Seminar - Elevator Pitch, Deusto Business School	2020
Topics in Applied Economics, University of Essex	2019
Communication and Information Aggregation, Universität Konstanz	2018

Grants

Pre-doctoral Fellowship	2020-2023
Erasmus+ Grant, departmental level	2018
3rd-year Undergraduate Scholarship, college level	2015

Skills

Software: R, STATA, Python, LaTex, SQL, MS Office, Git.

Languages: Chinese (native), English (fluent), German (basic).
